WORK EXPERIENCE

WINTEC SOFTWARE SOLUTIONS

NAIROBI, KENYA

FRONTEND DEVELOPER

OCTOBER 2022 – APRIL 2023

- Building and maintaining of the human resource recruiting system where candidates get to apply for vacancies.
- Integrated the system with the SMS and Email communication APIs to facilitate communication during the recruitment process.
- Developed a payroll system to facilitate payment of employees and keep record of the payment transactions.
- Performing quality assurance and fixing bugs.
- Building of websites for companies.

PERSONAL PROJECTS

E-COMMERCE WEB APP

- Build it as my second year project following the MVC architecture.
- I integrated it with email communication from localhost.

PHARMACY MANAGEMENT APP

- I build this web application in my third year to facilitate and manage buying and selling of medicines from a pharmacy.
- Build it in such a way that it can generate a receipt.

AN IOT HOME SECURITY SYSTEM

- Build a fingerprint security system using Arduino that controls access of a home by a person.
- I integrated it with an alarm and SMS functionality to alert the owner of the home when there is an intruder
